End Application:

Aircraft assembly, nodel code for the v-22 aircraft

Design Type:

Friction

Inside Diameter Length:

0.695 inches

Product Name:

Cap, protective, dust. Cap, end

Special Features:

Penetrant inspect per astm e 1417.Type 1 fluorescent dye, sensitivity level 3 hig () . Relvenant indications are not acceptable. Traceability control by lot number required.

Material:

Titanium alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539k0
