Width:

6.500 inches

Edge Shape:

Rectangle, rounded corners, multi holes

Length:

9.730 inches

Corner Radius:

0.250 inches

Product Name:

Panel i/o

Special Features:

Color white paint chip 27875

Material:

Aluminum alloy

Material Specification:

Qq-a-250/11-t651 military specification all material responses

Surface Treatment:

Aluminum alloy and paint

Surface Treatment Specification:

Mil-c-5541, class 3, chemical conversation coating military standard single treatment response and 12344343, tacom specification mfr ref single treatment response and fed-std-595 federal standard single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

spec.
