## Width:

6.500 inches

## Edge Shape:

Rectangle, rounded corners, multi holes

## Length:

9.730 inches

## **Corner Radius:**

0.250 inches

Product Name:

Panel i/o

## **Special Features:**

Color white paint chip 27875

## Material:

Aluminum alloy

## Material Specification:

Qq-a-250/11-t651 military specification all material responses

## Surface Treatment:

Aluminum alloy and paint

## Surface Treatment Specification:

Mil-c-5541, class 3, chemical conversation coating military standard single treatment response and 12344343, tacom specification mfr ref single treatment response and fed-std-595 federal standard single treatment response

## Shelf Life:

N/a

## Unit Of Measure:

--

## Demilitarization:

No

## Fiig:

A531c0

## Mil-std (military Standard):

spec.
