Overall Length:

4.040 inches

Overall Height:

3.625 inches

Overall Thickness:

1.500 inches

End Application:

2350-00-122-6826, recovery vehicle, full tracked (vehicle, recovery m-88 series)

Material:

Aluminum alloy

Material:

Aluminum alloy

Shape:

Triangular

Supplementary Features:

Material-aluminum alloy, 6061-t651, specification astm b211 or satm b209, both 1.500 in thk, finish iaw 19207-12369001, used on m88a1, next higher assembly 12478182

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T174-a
