Overall Length:

7.000 inches

Overall Width:

2.620 inches

End Application:

Oe-25 (v) /upn, antenna group

Product Name:

Bracket, motor, elevation

Special Features:

Nha: an/fpn-63 precision approach radar set

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
