Width:

2.710 inches

Thickness:

0.090 inches

Length:

2.780 inches

End Application:

Drive speed increase

Product Name:

Plate, switch

Special Features:

5 total mounting holes; 3 at 3 corners, 2 that are on left (as looking at) edge with 1.00 long inch x 0.56 deep inch notch between, all 3 same size with full radius, 0.56 inch long, 0.156 inch wide; 2 round, 1.34 inch from edge with notch, 0.58 inch from bottom edge, hole center to hole center is 1.00 inch

Material:

Aluminum alloy 5052

Shape:

Flat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530d0
