End Application:

Module, supopr type i an/aqs-20 (53711) 8224100

Material And Location:

Steel, corrosion resisting err-100 err-100

Product Name:

Over-center tie down buckle

Special Features:

Breaking strength 600 lbs; working load 200 lbs; weight 0.11 lb; 3.44 inch length; 1.62 inch width; 0.80 inch height; tension take up is 0.625 inch; slots on side of lever are for optional safety seal or safety pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-g
