Width:

6.230 inches

Thickness:

0.100 inches

Length:

2.220 inches

Mounting Hole Diameter:

0.422 inches all holes

Mounting Hole Type:

Unthreaded

End Application:

8197380 (53711) rms sea type ii module

Mounting Configuration:

Spaced 3.000 inches apart 1.190 inches from width edge and 0.990 inches from length edge

Product Name:

(inavy)shim, aft pylon bumper

Special Features:

Shape is "I" with cut out portion being 0.845 inches along the length edge and 1.480 inches along the width edge

Material:

Aluminum alloy 6061

Material Specification:

Astm b209 assn standard all material responses

Surface Treatment:

Anodize

Shape:

Irregular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
