Width:

8.000 inches

Thickness:

0.063 inches

Length:

2.250 inches

Mounting Hole Diameter:

0.280 inches all holes

Mounting Hole Type:

Unthreaded

End Application:

8197380 (53711) rms sea type ii module

Product Name:

(inavy)shim, cone pad, fwd

Special Features:

Shim has 8 mounting holes, 3 each on either end forming an inward triangular configuration and two in the middle up and down

Material:

Aluminum alloy 6061

Material Specification:

Astm b209 assn standard all material responses or astm b221 assn standard all material responses

Surface Treatment:

Anodize

Shape:

Flat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
