Width:

6.750 inches

Thickness:

0.250 inches

Length:

2.380 inches

Mounting Hole Diameter:

0.281 inches all holes

Mounting Hole Type:

Unthreaded

End Application:

8197380 (53711) rms sea type ii module

Product Name:

(inavy)shim, cone pad, aft

Special Features:

rectangular shaped with horseshoe shaped cut out being 2.250 inches along one width edge and extending 2.150 inches into the shim; shim also has 7 mounting holes, 5 of which are on one side of the cut out and 2 on the other

Material:

Aluminum alloy 6061

Material Specification:

Atms b209 assn standard all material responses or atms b221 assn standard all material responses

Surface Treatment:

Anodize

Shape:

Irregular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
