Thread Direction:

Right-hand

Thread Length:

0.750 inches

Width Across Flats:

0.375 inches

Overall Length:

1.438 inches

End Application:

Mark 7 aircraft arresting gear valve actuation and control

Mounting Method:

Threaded hole

End Pressure Rating:

Between 0.250 pounds and 1.250 pounds

Thread Qty Per Inch (tpi):

16

Thread Size:

0.375 inches

Product Name:

Hand retractable spring plunger

Special Features:

L-type handle; 0.25in diameter tip

Material:

Steel comp 316

Shape:

Hexagon

Supplementary Features:

Used on belt drive assembly crosshead 2056as0534-1

Thread Series Designator:

Unc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
