End Application:

MINE-DE-TEC-TORS

Product Name:

Rubber and foam

Special Features:

Shape is u-channels; no backing; wall thickness is .125 inches thick; outside width is .500 inches by .500 inches in height; temperature range is minus 100 degrees to plus 450 degrees fahrenheit; cut with scissors or shears; tensile strength is 700 psi; item is weather resistant and electrical resistant; must meet ams specification ams 3302ag

Color:

Orange

Material:

Rubber silicone

Style Designator:

Flat recessed top

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A53510
