**End Application:**

2355-01-539-3639; lav 25a2

**Product Name:**

Boot, dust and moisture seal

**Special Features:**

Material chemical-resistant fluoroelastomer, color black; operating temperature range neg 67 to pos 266 f; temp to heat shrink 257 degrees f; min tensile strength 1500 psi

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A02000
