Overall Length:

4.500 inches

Overall Height:

2.900 inches

Mounting Hole Diameter:

0.1875 inches

Mounting Hole Quantity:

3

End Application:

Ebc302 series el (emergency locator transmitter)

Special Features:

Bracket thickness: 0.063 inch; material: alum.5052-h32; drawing number: a-302-c-184; finish: zinc chromate etch then paint using yellow semigloss baked enamel color no. 23785 or black semigloss baked enamel color no. 27038 per federal standard no. 596b; eb (emergency beacon corp) stock number for yellow(br000020) and for black(br000030)

Material:

Aluminum alloy 5052

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A042a0
