Cross Sectional Shape:

Flat, round rib reinforced

Hole Diameter:

0.343 inches

Width:

1.625 inches

Flange Thickness:

1.320 inches

Edge Shape:

Rectangle, four holes

Length:

2.500 inches

Body Thickness:

1.632 inches

Mounting Opening Shape Style:

Unthreaded hole

Corner Cut Type:

Square

Material:

Steel comp 1020

Material Specification:

Qq-s-634, c1020 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
