Cross Sectional Shape:

Flat

Width:

1.530 inches

Edge Shape:

Rectangle, four holes

Length:

2.780 inches

Body Thickness:

0.064 inches

Securing Device Type:

Threaded fastener

End Application:

1430-01-418-4396 radar set, semitrailer mounted

Corner Cut Type:

Square

Product Name:

Cover, housing, comparator

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response or qq-a-200/8 federal specification single material response

Surface Treatment:

Tin or zinc or copper

Surface Treatment Specification:

Mil-p-81728, tin lead plate (or mis-41177) military specification single treatment response or astm b253, zincate and copper strike assn standard single treatment response or mil-c-14550, class 3, copper plate military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-p-81728 spec.
