Width:

1.250 inches

Thickness:

0.600 inches

Length:

1.800 inches

Mounting Hole Diameter:

0.159 inches all holes

Mounting Hole Quantity:

4

Screw Thread Series Designator:

Unf

Mounting Configuration:

Rectangular pattern with centers of holes located 0.625 inches apart along length edge at a point 0.200 inches from length edge, and 0.500 inches apart along the width edge

Product Name:

Base-iff retainer

Special Features:

Mounting plate has through hole located through side of plate along beveled edged length that begins at a 0.570 inch diameter for 0.570 inches in length then changes to a 0.310 inch diameter for 0.625 inches in length, and then changes to a 0.136 inch diameter for 0.770 inches in length; mounting plate also has cut out area on same length edge, centrally located for a length of 0.255 inches and a width of 0.490 inches and a depth of 0.600 inches

Material:

Stainless steel

Shape:

Flat

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
