Cross Sectional Shape:

Flat

Width:

9.750 inches

Edge Shape:

Rectangle, no holes

Length:

14.800 inches

Corner Quantity:

4

Body Thickness:

0.125 inches

End Application:

Integrated family of test equipment (ifte)

Corner Cut Type:

Square

Product Name:

Cover, landline

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/11 federal specification single material response

Surface Treatment Specification:

Mil-dtl-5541, class 3 military standard single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0

Mil-std (military Standard):

Mil-dtl-5541 spec.
