Cross Sectional Shape:

Square or rectangular recess

Width:

12.0 inches

Edge Shape:

Rectangle, no holes

Length:

8.50 inches

Securing Device Type:

Hinge

Product Name:

12" x 8 1/2" fixed cover assembly, assembly rr

Special Features:

Assembly consists of (12) hinge, (2) brace, (1) fixed light cover plate, (1) rubber gasket, (4) quick pin release.

Material:

Stainless steel and rubber

Material Specification:

Qq-s-763, cl 316l, cond a federal specification 1st material response and astm a793, cl 316l, cond a assn standard 1st material response and mil-p-23460 opl military specification 1st material response and zz-r-765 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0

Mil-std (military Standard):

Mil-p-23460 spec.
