Width:

7.9 millimeters

Length:

680.0 millimeters

Product Name:

Stainless steel cable tie, gx series

Special Features:

Equipped with unique ball locking mechanism allowing simple and rapid installation and secure locking; operating temp: m80/p500 degrees c; high tensile strength; non flammable; high resistance to acetic and sulphuric acids, alkalis; generally very resistant to corrosion

Material:

Steel comp 304

Material Specification:

Aisi 304 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-j
