Width:

Between 1.99 inches and 2.01 inches

Thickness:

0.25 inches

Length:

Between 4.99 inches and 5.01 inches

Mounting Hole Quantity:

4

End Application:

4210-01-627-0524

Product Name:

Backing plate, airline manifold

Special Features:

Bracket has (4) mounting holes (2) with .257 inch through holes and (2) holes with .15 inch through hole, 10-24 unc-2b threading countersunk to .24 inches by 90 degrees on both sides.

Material:

Aluminum alloy 6061, type 6

Material Specification:

Astm b209 assn standard single material response

Shape:

Flat and rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
