Cross Sectional Shape:

Flat

Width:

203.0 millimeters

Edge Shape:

Rectangle, no holes

Length:

203.0 millimeters

Body Thickness:

25.0 millimeters

Securing Device Type:

Special

End Application:

Misc parts au

Product Name:

Door, access

Special Features:

Constructed from 0.86 galvanized steel. Has paired camlocks.

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0
