Cross Sectional Shape:

Flat

Width:

152.00 millimeters

Edge Shape:

Rectangle, no holes

Length:

152.00 millimeters

Body Thickness:

25.0 millimeters

Securing Device Type:

Special

Product Name:

Door, access

Special Features:

Constructed from 0.86 galvanized steel; has paired camlocks

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531n0
