Thread Size:

M10 all threaded portions

Major Outside Diameter:

50.0 millimeters

End Application:

4220-01-617-9405

Deflection At Static Load Rating:

8.0 millimeters

Maximum Load Rating:

244.0 kilograms

Product Name:

Isolator, vibration

Special Features:

Durometer is 70.0 (nom)

Height:

45.0 millimeters

Material:

Rubber housing

Style Designator:

Round int. Threaded flanges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535s0
