Width:

193.0 millimeters

Length:

307.0 millimeters

Special Features:

Ultrasonic inspection; gage does not exceed 1.0 inch; boric acid-sulfuric acid anodize; class 1 or 5 at 22 volts; apply one coat of primer; remove finish for electrical bonding apply alodine to those areas

Material:

Aluminum alloy

Surface Treatment:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
