Product Name:

Retainer, nut, floating

Special Features:

220 ksi; 450 degree f; barrel

Material:

Steel

Material Specification:

Astm a568, a29, qq-s-700, astm a684, ams 583 assn standard single material response

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416 type ii class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-a
