Cross Sectional Shape:

Flat w/open center

Width:

16.190 inches

Edge Shape:

Rectangle, no holes

Length:

66.620 inches

Body Thickness:

0.982 inches

Securing Device Type:

Hinge

Features Provided:

Handle for opening, lifting, closing, or the like

Special Features:

W/integral, overlapping, special shaped rubber seal

Material:

Aluminum alloy 5052

Surface Treatment:

Paint

Fsc Application Data:

Shelter system, collective protection, chemical-biological

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531n0
