Cross Sectional Shape:

Flat

Width:

12.500 inches

Edge Shape:

Rectangle, no holes

Length:

6.625 inches

Body Thickness:

0.106 inches

Securing Device Type:

Hinge

Features Provided:

Observation facility and handle for opening, lifting, closing, or the like

Special Features:

Additional material: steel comp 1014, 1016, 1017, 1018 or 1019

Material:

Steel comp 1008 or steel comp 1009 or steel comp 1010 or steel comp 1011 or steel comp 1012 or steel comp 1013 or steel comp 1015 or steel comp 1020

Material Specification:

Qq-s-698 federal specification single material response

Fsc Application Data:

Vehicular structural components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
