Cross Sectional Shape:

Grooved retainer

Inside Diameter:

4.620 inches

Retainer Thickness:

0.035 inches

Latch Style:

Double

Included Angle In Deg:

40.0

Nut Type:

Plain castellated hexagon

Segment Quantity:

2

Sealing Inner Liner:

Not included

Retainer Width:

0.620 inches

Root Width:

0.152 inches

Material And Location:

Nickel alloy

Special Features:

No band provided

Height:

0.215 inches

Shape:

Round

Specification Data:

26512-gc550 manufacturers specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25400
