Cross Sectional Shape:

Flat

Width:

17.120 inches

Edge Shape:

Rectangle, no holes

Length:

22.880 inches

Body Thickness:

1.188 inches

Securing Device Type:

Friction catch and hinge

Features Provided:

Sealing capability

Material:

Aluminum alloy

Fsc Application Data:

Lighter amphibious, resupply cargo

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0
