Cross Sectional Shape:

Flat

Width:

8.750 inches

Edge Shape:

Rectangle, no holes

Length:

4.516 inches

Corner Radius:

0.500 inches

Body Thickness:

1.250 inches

Securing Device Type:

Special

End Application:

2350-00-873-5408

Special Features:

Pad, cushioning incl

Material:

Aluminum alloy 7039 and rubber

Material Specification:

Mil-a-46063 military specification 1st material response and mil-r-3065 military specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A531n0

Mil-std (military Standard):

Mil-a-46063 spec.
