Cross Sectional Shape:

Flat

Width:

14.410 inches

Edge Shape:

Rectangle, no holes

Length:

22.125 inches

Body Thickness:

0.250 inches

Securing Device Type:

Hinge and slide fastener

Features Provided:

Handle for opening, lifting, closing, or the like and observation facility and sealing capability

Special Features:

Material: plastic acrylic

Material:

Plastic

Material Specification:

Mil-p-5425c military specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0

Mil-std (military Standard):

Mil-p-5425c spec.
