Inside Diameter:

0.530 inches

Major Outside Diameter:

2.000 inches

End Application:

Small emplacement excavator (r048)/hmmh (x501); tractor, all wheel drive w/attachments

Special Features:

Resilient member material neoprene rubber

Height:

1.220 inches

Material:

Steel tube

Material Specification:

Sae 1010 or 1020 assn standard single material response tube

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535s0
