Cross Sectional Shape:

Flat

Width:

Between 80.750 inches and 81.250 inches

Edge Shape:

Rectangle, no holes

Length:

Between 92.000 inches and 92.500 inches

Corner Radius:

7.000 inches

Body Thickness:

1.000 inches

Securing Device Type:

Special

Special Features:

Incl hydraulic securing system, door stiffeners, and hardware; color white

Material:

Steel comp 1010 or steel comp 1011 or steel comp 1012 or steel comp 1013 or steel comp 1015 or steel comp 1020

Material Specification:

Astm a575 assn standard all material responses or astm a663 assn standard all material responses

Surface Treatment:

Paint

Surface Treatment Specification:

Dod-p-23236, type 1, cl 1 military specification single treatment response

Supplementary Features:

Additional material: steel comp 1016, 1017, 1018 or 1019

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0

Mil-std (military Standard):

spec.
