Cross Sectional Shape:

Flat

Length:

6.130 inches

Body Thickness:

0.250 inches

Securing Device Type:

Special and hinge

Special Features:

0.112-40 unc-2b threaded hole countersink 82.0 degrees by 0.132 in. Diameter four places; 2.750 in. Distance between hole centers along the w and 1.750 in. Distance between hole centers along lg

Material:

Aluminum

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0
