Cross Sectional Shape:

Grooved retainer

Opening Width:

0.300 inches

End Application:

C130j aircraft

Retainer Width:

0.660 inches

Material And Location:

Aluminum alloy bolt and aluminum alloy nut and aluminum alloy rivet and aluminum alloy retainer and steel, corrosion resisting washer

Precious Material And Location:

Self locking nut finish silver

Precious Material:

Silver

Shape:

Round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A25400
