End Application:

B-2 aircraft

Drive End Outside Diameter:

0.250 inches

Drive End Style:

External

Material And Location:

Steel, corrosion resisting

Drive Facility Style:

Round

Length From End To Arm Center:

0.300 inches

Handle Mounting Hole Diameter:

0.240 inches

Special Features:

The company calls this an arm, eyebolt positioner, the material specification for this item is ams 5659

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25300
