Flange Thickness:

1.750 inches

Distance Between Mounting Hole Centers:

2.370 inches

Flange Length:

3.130 inches

End Application:

Misc parts auxiliary system inls

Special Features:

-25 degrees to + 180 de f has 6 mounts interlocking steel design to keep mount intact if rubber fails

Height:

2.750 inches

Style Designator:

Round w/bushing two-hole flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535s0
