**Cross Sectional Shape:**

Grooved retainer

**Inside Diameter:**

1.940 inches

**Groove Width:**

0.771 inches

**Temperature Rating:**

-65.0 degrees fahrenheit and 290.0 degrees fahrenheit

**Retainer Thickness:**

1.940 inches

**End Application:**

F/a-18e/f; environmental controls

**Latch Style:**

Double

**Segment Quantity:**

2

**Sealing Inner Liner:**

Not included

**Retainer Width:**

1.750 inches

**Material And Location:**

Steel, corrosion resisting

**Surface Treatment And Location:**

Passivated, qq-p-35

**Special Features:**

Clam-shell assembly; includes 2 clam-shell halves p/n-14m02-28c, 2 latch pawls-14l04, 1 latch pawl-14l24, 3 latch springs-14p02v, 4 pins-14g02v, 4 bonding springs-14e24-1628, 1 safety strap-lc159-28; max radius-1.55 inches

**Height:**

2.123 inches

**Shape:**

Round

**Supplementary Features:**

(inavy)coupling clamp grooved, aircraft material

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A25400
