**Width:**

6.000 inches

**Thickness:**

2.500 inches

**Length:**

6.000 inches

**End Application:**

Rcr for navss

**Core Diameter:**

0.620 inches

**Material And Location:**

Steel core

**Construction:**

Solid

**Product Name:**

Anode

**Special Features:**

Heat exchanger slab style a (pipe core) type lep; material low voltage alloy only

**Weight:**

8.0 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A25200
