Width:

6.000 inches

Thickness:

2.500 inches

Length:

6.000 inches

End Application:

Rcr for navss

Core Diameter:

0.620 inches

Material And Location:

Steel core

Construction:

Solid

Product Name:

Anode

Special Features:

Heat exchanger slab style a (pipe core) type lep; material low voltage alloy only

Weight:

8.0 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25200
