Width:

24.000 inches

Thickness:

0.500 inches

Length:

48.000 inches

End Application:

Rcr for navss

Construction:

Solid

Product Name:

Anode

Special Features:

Plate shape (no core) type apn or lpn, 0.50 inche thick; lettering on exposed face use lpn vice apn for low voltage alloy

Weight:

52.4 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25200
