Usage Design:

Metal working

Abrasive Material:

Silicon carbide

Compound Weight:

3 ounces

Abrasive Lubricant Type:

Water

Special Features:

Odorless; color - grey; water base; non-corrosive, non-toxic, non-flammable; multipurpose; gelling agent; storage - cool, dry location; removes burrs, surface defects and corrosion; container - tube; grit size varies from (120 to 220) depends on the water amount; physical form - paste

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06900
