Attachment Method:

Threaded holes

Item Accommodated Maximum Diameter:

0.375 inches

Locking Adjustment Type:

Friction knob

Special Features:

Bushing federal specification qq-b-613; insert military specification l-m-17091; knob federal specification l-m-525, type 3 or l-p-349, type 3, class h2

Material:

Copper alloy 230 or copper alloy 240 or copper alloy 260 or copper alloy 268 or copper alloy 342 or copper alloy 353 and plastic

Surface Treatment:

Nickel

Style Designator:

Locknut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530v0

Mil-std (military Standard):

spec.
