Material Thickness:

0.125 inches

Scale Direction And Range:

400 to 100 top to bottom single scale

Scale Division Quantity:

4 first scale

Scale Type:

Nonlinear second scale

Special Features:

Attachment method: shaft; outside width: 1.270 in.

Material:

Copper alloy dial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A53010
