Accommodated Shaft Diameter:

Between 0.177 inches and 0.181 inches

Special Features:

Material document and classification assn standard astm b16,

Material:

Copper alloy 360

Surface Treatment:

Nickel and chromium

Style Designator:

Hexagon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530w0
