Attachment Method:

Nut

Accommodated Shaft Diameter:

Between 0.245 inches and 0.255 inches

Special Features:

Surface treatment document and classification federal specification qq-n-290

Material:

Copper alloy 260 or copper alloy 268 or copper alloy 342 or copper alloy 353 or copper alloy 360 or copper alloy

Surface Treatment:

Nickel

Style Designator:

Hexagon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530w0
