Attachment Method:

Threaded holes

Item Accommodated Maximum Diameter:

1.312 inches

Locking Adjustment Type:

Friction knob

Special Features:

Insert military specification mil-c-895; skirt federal specification l-p-349, type 2, class 2; surface treatment document and classification insert federal specification qq-n-290, class 1, type 5

Material:

Copper alloy and plastic cellulose acetate butyrate

Surface Treatment:

Nickel

Style Designator:

Locknut

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530v0

Mil-std (military Standard):

Mil-c-895 spec.
