Scale Direction And Range:

0. To 360 clockwise single scale

Drive Ratio:

18.1

Drive Type:

Gear

Scale Type:

Linear single scale

Positioning Mechanism Type:

Knob dual

Special Features:

Bearing material: stainless steel; body material: aluminum; escutcheon material: aluminum; gear material: steel comp 303; mounting cup material: aluminum; body surface treatment: anodized; escutcheon surface treatment: chromate; mounting cup surface treatment: anodized

Material:

Aluminum dial

Material Specification:

Err-070

Surface Treatment:

Anodize dial

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530p0
