Inside Diameter:

0.250 inches

Counterbore Diameter:

0.468 inches

Counterbore Depth:

0.110 inches

Setscrew Hole Quantity:

1

Overall Depth:

0.440 inches

Width:

0.758 inches

Gripping Surface Condition:

Grip aid

Shaft Accommodation Style:

Counterbored

Length:

0.530 inches

Attachment Method:

Setscrews

Material Transparency:

Opaque

Thready Qty Per Inch (tpi):

32 setscrew

Thread Size:

0.138 inches setscrew

Pointer Design:

Nondetachable

Special Features:

Knob has spun aluminum top and has straight knurled sides with a bar pointer with an indicator line on the side and top of the pointer

Material:

Plastic phenolic

Style Designator:

Round with single pointer

Thread Series Designator:

Unc setscrew

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530m0
